

6516209022.txt

I spend 80% of my working hours on the road throughout Upstate NY and the surrounding states. I have 2 subscriptions to XM Satellite Radio and I pay for the right to listen to what I want to listen too. It is also a matter of safety, many people do not know the local stations in the areas they are traveling in or may be in between areas. I will be paying close attention to this matter and I am active in all local and national elections.
